WEDDING CAKES

Thanks for your inquiry! Below is some general information about ordering wedding cakes from us.

We are pretty informal and do not do formal tastings. Usually, people roughly follow this process for ordering a wedding cake.

Cake and Frosting Flavors

You can find cake and frosting flavors we offer if you go to jennycakesbakery.net, click on [Menu and Order](#) tab, then click on [Cakes and Cupcakes](#). Most people order under the first category called [All-Classic Yellow or Chocolate Cake/Cupcake](#). Be sure to check out that category because there are things like chocolate chip cookie dough filling buried in there! But don't forget to scroll down through the rest of the flavors like Red Velvet, Cookies and Cream, Just Vegan, Vegan and Gluten-Free, and more.

For tiered cakes, keep in mind that you can do different flavors for different tiers.

For example, you can do

a 6" yellow with lemon zest cake with strawberry buttercream in the middle on top of a

9" chocolate cake (feeds up to 22) with mocha buttercream in the middle on top of a

12" yellow cake (feeds up to 50) with chocolate buttercream in the middle

all frosted on the outside with white buttercream so the cake looks uniform.

Once you've glanced at the flavors, you might want to come into the bakery and buy a few cupcakes in the flavors you want to try to make sure you like how they taste.

Size

For tiered cakes, we offer four sizes:

4" round (feeds up to 3)

6" round (serves up to 10)

9" round (serves up to 22)

12" round (serves up to 50)

You can do whatever combination of these you would like, but we don't recommend doing two sizes that are very different from each other, like a 4" on a 9", or a 6" on a 12" because they tend to look weird.

Our biggest cake (4" on 6" on 9" on 12") serves up to 85 people. If you are serving more than 85 people, then you can always supplement with $\frac{1}{4}$ sheets (each serves up to 22) or $\frac{1}{2}$ sheets (each serves up to 50).

Decorating

To see wedding cakes we have prepared in the past, go to the website, click on the Photos tab, then click on the category at the top of the page called [Wedding and Shower Cakes](#).

If you don't see a wedding cake design on our website that you like, feel free to send a design you've found on the internet to me at jenny@jennycakesbakery.net and I'll let you know if it's something we can do. Just keep in mind that we decorate only with buttercream (made with real butter), so we can only do flat designs that don't involve such detailed work that it can't be captured with buttercream.

Usually the discussion about the decorating and flavors is done with me by email. Because things get hectic at the bakery, I find email works best for figuring out a wedding cake. But if you do come in, we'd be happy to talk to you. Any of my staff should be able to answer most questions about a wedding cake.

Pricing

The price for the cake will be the base price of the cake (and remember each tier is considered a separate cake), plus the price for assembling a tiered cake (\$25 for a 2-tier, \$35 for a 3-tier, and \$40 for a 4-tier), plus the price for decorating. For example, the price for a 3-tier with the D20 piping design on it would be

\$25 (base price for basic flavors) for the 6" tier

\$35 (base price for basic flavors) for the 9" tier

\$60 (base price for basic flavors) for the 12" tier

\$35 for assembly as a 3-tier

\$50 for decorating, the piping work on the outside

Total: \$205

How to Order

Once the flavors and design have been decided, the customer places the cake order through the website so that I have all of your information in one place and in your words and we can be sure to prepare the cake exactly the way you want it.

Below are some basic instructions for ordering through the website. If you plan to order a tiered cake, just order each tier as a separate cake but under Special Instructions mention that it's part of a tiered cake.

- Go to jennycakesbakery.net.
- Click on [Menu and Order](#)
- Click on [Cakes and Cupcakes](#)
- Click on the **cake flavor** you would like.
- Select from the **various dropdowns**, such as size (which includes info on how many people each size serves).
- Scroll down a bit further and add any **Special Instructions** about decorating, that it's a tiered cake and anything else.
- Click on **Add to Cart**. Cart will appear on right-hand side of your screen.

- Click on **Place Order**.
- Add your **contact information**.
- Scroll down a bit further and click on the **date and time you would like to pick up** your order.
- Click on **Place Order** one last time. You will receive an emailed confirmation. If you don't see it right away, be sure to check your spam folder. The price on the confirmation will reflect *just the base price* and will *not* reflect the extra charges for decorating or special fillings (salted caramel and ganache) or tiered cakes.

A Few Last Things to Keep in Mind

We don't have an arrangement with a florist so usually people bring the flowers to us and we put them on the cake or someone puts them on at the venue.

We don't generally carry cake toppers.

We generally don't deliver but if the reception is fairly close we can usually find a way to deliver the cake to you.

We look forward to working with you!

Jenny
